PROFESSIONAL SUMMARY

Motivated and detail-oriented front-end and back-end developer with foundational knowledge of **HTML, CSS, JavaScript, Bootstrap**, and **PHP**. Strong background in **customer-facing roles** and administrative coordination, now transitioning into tech with hands-on projects and training. Fast learner, eager to contribute to real-world web development and sharpen UI/UX skills in a fast-paced startup environment.

TECHNICAL SKILLS

- ****Languages****: HTML, CSS, JavaScript, PHP
 - ****Frameworks/Libraries****: Bootstrap
 - ****Tools/Technologies****: Git, Laravel Herd, Visual Studio Code
 - ****Backend & Database****: SQL, MySQL
 - ****Others****: ERP Systems (Tally 9), PowerPoint, SEO Basics, Associate Project Manager
-

PROJECTS

Personal Portfolio Website (In Progress)

Developing a personal portfolio website using HTML, CSS, JavaScript, and Bootstrap to showcase completed projects, skills, and contact information. Focused on responsive design and smooth user experience.

FoodFusion Website (Full-Stack Project)

A responsive website where users can sign in and log in to view, like, comment, and download recipes featuring dynamic menus, interactive UI components, and modern styling using CSS and JavaScript for the front end. The back end is built with PHP and MySQL, and runs with Laravel Herd, enabling features like user input handling, data storage, and server-side logic. Ready for deployment and will be added to the portfolio once live.

****Technologies Used****: HTML, CSS, JavaScript, Bootstrap, PHP, REST API and Laravel Herd
